

TTI Production

Business Profile

Earth Observation Consulting Services

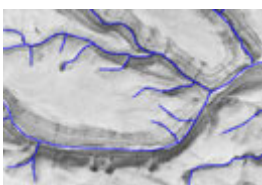

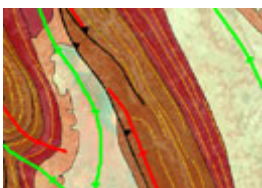

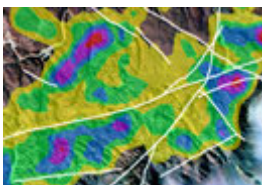

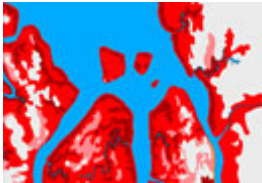

Your contact: **Jérôme XAVIER**
+33 5 59 02 67 33 xavier@tti.fr

TTI Production is an international consulting company in Earth Sciences, Satellite Mapping and GIS (Geographic Information Systems). TTI is a worldwide service provider having performed more than 350 studies on five continents for Petroleum Exploration and Production.

TTI's technical staff, which includes geologists, geomorphologists, geographers, foresters, computer scientists and image processing specialists, has made substantial contributions to the advancement of satellite mapping technology. TTI Production is a USGS Business Partner, authorized seller of high resolution satellite imagery and producer of Digital Terrain Models (DEM / DTM).

Oil & Gas Geospatial Products and Services:

- Geologic Synthesis
- Structure and Lithology
- Faults and Fractures
- Quantitative Geomorphology
- Seismic survey planning
- Pipeline routing
- Well location
- Environmental Baseline Studies
- Environmental Impact Assessments
- Facility siting
- Oil Spill Response Planning
- Coastal Zone Management
- Buried Pipe Detection ...

More than 350 Remote Sensing Oil & Gas projects since 1994
